

WHY SHOULD I SUPPORT ORMCA-PAC?

Political Action Committees (PACs) are one of the most valuable political involvement activities for corporations and associations. In the past several years ORMCA has been able to achieve the goals set before us to help prevent legislative and regulatory action from negatively impacting our industry. We could not have accomplished these objectives without a strong member-supported PAC.

Why shouldn't you support the ORMCA-PAC? It makes a difference in your company's future. We need your support now to ensure ORMCA's access to our legislators, government officials and regulations. ORMCA-PAC is funded by our members' contributions. Contributions are discretionary and in addition to your dues. We are a state PAC and no contributions are permitted to federal candidates. PAC funds are contributed to statewide candidates who support our goals. It is important that our industry support candidates who support our issues and we are able to accomplish this through PAC funds.

You can contribute to ORMCA-PAC with confidence knowing that 100% of your contribution goes toward candidate support and lobbying efforts. Decisions on which candidates ORMCA should support are based on which candidates are committed to economic growth, job development and the small business agenda. Once these candidates are elected, there is a greater likelihood that the business community and the ready mix concrete industry will receive favorable consideration on our many issues and concerns.
