

# ORMCA's 200- Bestsellers List

**ORDER FORM**

We have put together a list of some of our most popular literature for all of your concrete needs. Take advantage of this offer to add to, or update your reference collection.

1

**A Homeowners Guide to Healthy Concrete** - This brochure discusses the basics of residential concrete with emphasis on proper curing and sealing methods. It also contains valuable information for homeowners with new exterior concrete. **\$\$+. each**

2

**Take Care of Your Concrete Surfaces** - During the first year of a concrete pavement's life, proper care is crucial. This pamphlet warns about the harmful effects of deicers on new concrete. Every owner should receive this with their new concrete driveway, sidewalk, patio, etc. Recommended for distribution by homebuilders and residential concrete contractors. **\$ 0.25 each**

3

**Guidelines for Durable Driveways, Carports, Patios, Walks** From site preparation to curing, this pamphlet outlines proper concreting procedures for quality exterior residential concreting. A good tool for communication between homeowner and contractor. **\$0.20 each**

4

**Air Entrained Concrete** - Designed to inform the specifier, contractor or homeowner of the benefits of air entrainment in concrete and how it works. **\$0.15 each**

5

**ORMCA Concrete Technician Manual** - This book is used as a study guide for the ORMCA Concrete Technician course and is also a great reference guide for technicians who want to improve their knowledge of concrete. Topics covered include: principals of making concrete, aggregate sampling and testing, mix design and adjustments. **\$45.00 each**

6

**PCA's Design & Control of Concrete Mixtures 14<sup>th</sup> Ed.** - This book, is a full color, user-friendly and concise reference on concrete that includes the latest advances in concrete technology. The text reflects requirements of standards, specifications and test methods of the American Society for Testing and Materials (ASTM) and the American Concrete Institute (ACI). It is also used as the textbook for ORMCA's Advanced Concrete Technician Course. **\$100 each**

7

**NRMCA's Concrete in Practice (CIP) Series** - Concrete in Practice Sheets are one-page discussions on various concrete topics written in a nontechnical format covering "What, Why? And How," and providing concise and easy-to-read information for your customers. Of the 38 topics, Cold Weather Concreting, Hot Weather Concreting, Scaling Concrete Surfaces, and Pervious Concrete, are among our bestselling titles. **\$0.50/each**

8

**ACI Concrete Field Testing Technician and ACI Concrete Craftsman Flatwork Technician/Finisher** - Not only are these books great study guides for those seeking ACI certification, but they will also make a good addition to your concrete reference collection. These books include the most current ACI and ASTM standards for testing, placing, and finishing freshly mixed concrete.
