

Bolivar Marathon Station

Location: Bolivar, OH SE Corner at intersection of I-77 & Rt 212 in Tuscarawas County

Ready Mix Producer: Huth Ready Mix & Supply Co

Contractor: Berlin Contractors

Designer: Campbell Oil

Year constructed: 2014

Volume: 2600 CY, 6" thick pavement

Concrete pavement is the favored design choice for the growing number of BellStores. Based in Massillon, there are 53 locations in Ohio and employ over 700 people. Concrete is chosen for its durability against petroleum products, its low maintenance requirements, and its high reflectivity, especially at night. It provides a warm, inviting location with food and gas for interstate travel.
