Emergency Message from the President & Executive Director

As of 5:00 pm today, Monday, March 16, 2020, the Ohio Concrete Office will be closed indefinitely due to the spread of COVID-19 (also known as the Coronavirus). My primary concern is for the safety and well-being of all staff members, as well as our membership. I have postponed all certification classes, seminars, etc., that require physical contact. I have instructed our staff to have no physical contact with anyone other than immediate family, until this situation has been resolved.

Please rest assured that even though our office is closed, we will still be offering all services to our members remotely. The Engineering Services center will still be operating, but will require a little longer response time. The Engineering staff will still be providing technical services, with the exception of physical appearances. All staff members are readily available Monday through Friday, at the regular business hours. Contact any staff member by email, cell phone, or text messages. All staff contact information will be posted on our "Members Only" section of our website (ohioconcrete.org) for your convenience (with the exception of Amy and Carrie – you may email them only!).

The earliest **possible** date for reopening the office will be April 6th. We will monitor the situation very closely, and will act accordingly. I will only reopen the office when I am certain that the danger of COVID-19 no longer exists. We will attempt to reschedule certification classes and seminars when we can safely administer them. Experts in infectious diseases for the state of Ohio predict that 40% of Ohio residents will be infected by this terrible disease. Please feel free to contact any staff member with your questions or concerns.

Extraordinary conditions call for extraordinary measures, and Ohio Concrete will do everything we can to prevent the spread of COVID-19. Thank you for your patience and understanding during these troublesome times. Remember that we at Ohio Concrete are still here every day to service your needs. These may be difficult times, but Americans have always prevailed when facing difficult situations. We will get through this together.

Sincerely,

Gregory A. Colvin
President & Executive Director
