MEET THE SPEAKERS

CHRISTOPHER R. TULL, PE, LEED AP
Building Relationships to Solve Concrete Challenges

Owner of CRT Concrete Consulting, with over 18 years of experience helping clients address technical issues in concrete through a relationship-driven approach. Specializes in slabs on grade, pavements, mixtures, mass concrete, and training. Christopher holds a BS in Civil Engineering from Cornell University.

JORDAN VOGEL
Commercial Construction's Impact on Our Region: Data & Insights + Workforce Development That's Bearing Fruit

Jordan Vogel is the Executive Director of Allied Construction Industries (ACI) and the Cincinnati Division of AGC of Ohio, leading workforce, advocacy, and partnership initiatives for the region's commercial construction industry.

DAN PHILLIPS
Practical Tools for Success: From Change Orders to Production Tracking

Dan Phillips is the Excavation Department Manager at Phillips Companies, bringing lifelong experience in excavation and construction management, with a focus on integrating drone technology to improve project efficiency.

KELLY BARRY
Resilience Strategies for a Healthier Workplace

Kelly is Senior Program Manager at 1N5, specializing in mental health education, suicide prevention, and workplace wellness strategies that build resilience and support healthy team cultures.

JILL SMITH
Kentucky: Models for the Future in Resilience & Energy Efficiency Come from Surprising Places

Jill, AIA, NCARB, is President of Civic Consultants and a national expert in concrete building design. She focuses on resilient, energy-efficient, & low-carbon solutions that drive sustainable, durable, & disaster-resilient communities.
