

# Strength, Speed, and Efficiency—All in One System: INSULATED CONCRETE FORMS (ICF)

## FREE EDUCATIONAL EVENT, TOUR, & LUNCH

# APR. 22

8:30 AM - 1:00 PM

### Hampton Inn Newport

275 Columbia St, Newport, KY 41071

## EVENT DESCRIPTION

Lighter, faster, and more cost-effective than many traditional building methods, Insulating Concrete Forms (ICFs) are rapidly becoming a preferred solution across residential, commercial, and institutional construction—from homes to hotels, schools, and offices.

Built for disaster resilience and high-performance energy savings, ICF structures are designed to stand up to extreme conditions while delivering long-term efficiency and durability.

Through expert insights and a guided tour, you'll explore the performance, strength, and long-term value behind one of the fastest-growing building systems in the industry—and see why more builders are making the switch.

## WHO SHOULD ATTEND

Design Professionals, General Contractors, Masonry Contractors, Concrete Contractors, Wood and Steel Framers, Developers, School Board Members.

## CONTINUING EDUCATION

Earn 3 AIA-CES HSW Learning Units and Professional Development Hours (PDH).
