

MIX MATTERS: CONCRETE QUALITY IN PRACTICE

PROPER CONCRETE CYLINDER TESTING & CURING WORKSHOP

APRIL 23

FREE EDUCATIONAL EVENT

 **2 PM - 6 PM**

 Hofbräuhaus Newport
200 3rd St
Newport, KY 41071

 Food & Happy Hour Included

 3 CPDs Available

 Parking

**CLICK HERE
TO REGISTER**

This workshop brings together contractors, testing technicians, engineers, and suppliers to discuss best practices for sampling, curing, and testing concrete cylinders. The goal is to improve consistency in cylinder preparation and curing, reduce strength test variability caused by handling errors, and strengthen collaboration between field personnel and testing laboratories.

2:00 PM Registration **3:45-4:30 PM** Panel

2:30-3:30 PM Julie **4:30-5:00 PM** Julie

3:30-3:45 PM Break **5:00-6:00 PM** Networking
/Happy Hour

FEATURED SPEAKER:

**Julie K.
Buffenbarger**

*Sr. Scientist & Sustainability Consultant |
Technical Engineer Beton Consulting
Engineers & St. Marys Cement*

Julie K. Buffenbarger is a Senior Scientist and Sustainability Principal for Beton Consulting Engineers and a Technical Engineer for St. Marys Cement. She is internationally recognized for her expertise in sustainability, durability, service life, and concrete mixture development. Julie has more than 32 years of experience working with sustainable and innovative materials for concrete construction and serves on several ASTM and American Concrete Institute committees focused on sustainability and responsible use of concrete materials.

FURTHER PANEL DISCUSSION WITH INDUSTRY EXPERTS:

- Cement Expert: Jay Whitt, Ohio Concrete
- Ready Mix: Brett Deters, Hilltop
- Testing Lab: Ian Saucy, SM&E
- Contractor: Prus Construction
